

Corporate Profile

Business Overview

Expert Rail Contractors At Your Service

Polyzomba Rail Contractors has been pioneering the rail industry since 1996 - that's 20 years of quality service excellence at your disposal. We started out in general civil works projects of varying size and capacity then later focused on rail construction and maintenance - as a core service offering.

Be it as a sole entity or joint business venture with industry partners - working with and forming solid partnerships to us signifies and solidifies: staying on the right rail track.

We are a passionate and successful close corporation steered by four partners.

Our company members are sound and brilliant business professionals who bring sound, progressive and lucrative qualities to the table - supported by personnel experienced in the rail industry.

Our extensive team of skilled and talented professionals is at the forefront of consistently innovating engineering technologies and methodologies of the rail industry.

They are forever pushing boundaries by always looking for ways to improve on what is deemed as best in their respective fields. Channelling their energies and excellence in all they are experts at - they remain committed true service excellence.

They are employed at both senior and junior management levels and make it possible for us to keep providing good quality service - every time, all the time.

Now that's what makes good quality business cents...
Don't you rail-reckon?

Business Overview

Company Objectives

In living up to our mission, we strive to:

- Satisfy our clients
- Be considered a preferred service provider in the industry

Executive Team

Chairperson - Sifiso Pretorius

Sifiso Pretorius - has over 20 years experience in the civil engineering construction industry, both within and outside of South Africa Pre-1994, during his time in exile in Lesotho.

He is the founding member of the company and his entrepreneurial and industry background has enabled the progression of the company to what it is today.

Sibusiso Anthony Pretorius

Sibusiso is part of senior management and is the Business Developer at Polyzomba Rail Contractors specialising in project operations and new business procurement in the rail sector and construction

Sibusiso holds a Bachelor of Commerce in an Entrepreneurial Degree and has experience in various entrepreneurial endeavours within the construction and technological research and development sector. His experience also extends in information technologies networking and server installations to production development in new construction technologies and machinery. His further experience in public sector projects such as a government owned hospital in Ladysmith and working internationally has gained him much exposure to specialised material conveying machinery manufactured in Paris France.

He is now focused in the Rail Sector leading the revision of new applications of technologies in rail industries at Polyzomba Rail Contractors.

Executive Team

Chief Executive Officer - Lerato Pretorius

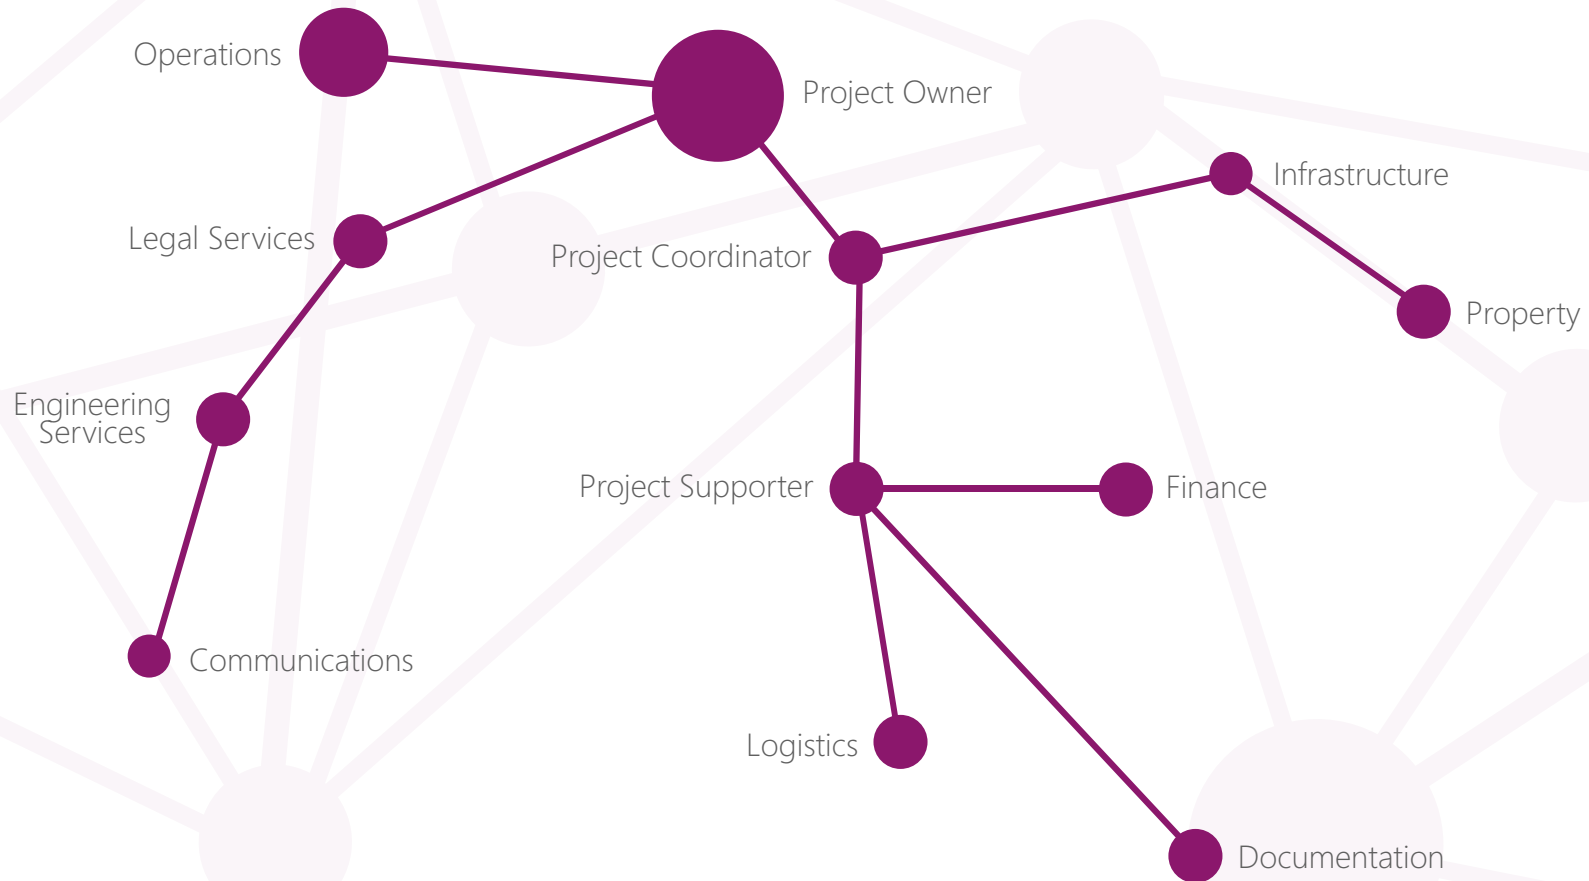

Lerato Pretorius is the CEO of Polyzomba Rail Contractors. She is a qualified Project Manager who holds a various qualifications in business and banking as well as an MBA. Lerato spent her early professional years in banking working for Barclays Bank in Maseru Lesotho for 10 years, Standard Bank South Africa and later moved to Investec Private Bank

Following her 20-year career in banking, Ms Pretorius changed track and ventured into the world of ICT where she joined IFusion as a Business Development Director. With the acquired critical insights into the information communications technologies sector, she embarked on self-employment and registered her own business Lehlaka Technologies with the vision of running a successful black owned female company in her endeavour to empower young women in a male dominated industry of ICT. In 2007 she was appointed as the CEO and is also a shareholder in the business and during her tenure at Polyzomba Rail Contractors has successfully completed projects for Spoornet and PRASA.

She is a Platinum Member of Stanford Who is Who International Magazine and a member of IODSA.
